

Principality of Sealand

VRIL

## Government Commission VRILIA

### Greetings at the Turn of the Year 2014/2015

Our long-time efforts to end the status of occupation in Germany by a Peace Treaty and thus lead to the deletion of the Germany Reich still extant on the territory of the so-called GFR from the UNO enemy state list unfortunately must be seen as having failed.

In our correspondence with the Auswärtigen Amt (Department of Foreign Affairs) in November and December 2014 (Dr. Moschtagi) we were told in writing that in the "Federal Republic of Germany" *only diplomats are entitled to personal inviolacy*. Thus it has again been established, as any informed person knows, that for any German citizen due to the right of control by the Allies (USA) the inviolacy of the person fails to be secured by international law.

The application of VRIL technology will, as mentioned before, be used against the USA with increased force. Apparently the US want to instigate a decision by war. The economic war is well underway, especially through the present manipulation of the oil price. But the actual foe is hardly impressed by this. The decisive question of energy is answered in a completely new way. What this means becomes ever more evident. The pullout of EON from conventional energy supply is just the beginning.

As allies of the forces that aim at helping humanity to a breakthrough in the question of consciousness and thus also in the energy realm we will do what is within our powers to support the German people, but also all states who want to oppose the destructive ambitions of the tumbling world power USA in ending these no longer tenable further targeted applications of VRIL technology to end this unacceptable state of affairs.

You may read about the developments in the year 2014 as far as we have been involved on [www.principality-of-sealand.eu/new\\_e.html](http://www.principality-of-sealand.eu/new_e.html).

We wish all Germans, all Europeans and all peace-loving people of the world a healthy and successful New Year 2015.

December 2014

Johannes W. F. Seiger  
Member of the Government  
Commission VRILIA

Urs Thoenen  
Minister for Cultural Affairs  
and Information
